

## TRIMO modularni vrtci

profesor: doc.mag. Tadej Glažar    tehnični sodelavec: Andraž Intihar    avtorji: Blaž Boldin, Ada Finci Terseglav, Urska Hvalica, Tina Javornik, Eva Remec, Jure Sadar, Gašper Skalar

# UVOD

---

naša naloga je bila, da Trimove modularne enote spremenimo v otrokom prijazen vrtec

naloge smo se lotili tako, da modularnih enot nismo poizkušali zakriti, ampak prikazati na čim bolj arhitekturno zanimiv način

osredotočili smo se na prostorsko organizacijo, oziroma kompozicijo zlaganja modularnih enot in na arhitekturne elemente, kot so streha, okna, svetlobniki, senčila in notranja oprema, ter z njimi poskušali vrtcu dodati toplino

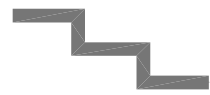

lotili smo se tudi raziskovanja fasade in odkrili različne možnosti, ki nam jih ponujajo Trimovi paneli (različne barvne kombinacije, potiski panelov in Art me paneli)

# PROSTORSKE ZASNOVE

---

z razvojem različnih tipologij smo poizkušali narediti fleksibilno zasnovo, možno prilagoditvi različnim lokacijam

vsaka od štirih zasnov (linijska, križ, preproga, stopničasta) ima tudi možnost faznega dograjevanja

# TLORISI IGRALNIC IN VEČNAMENSKE AVLE

---

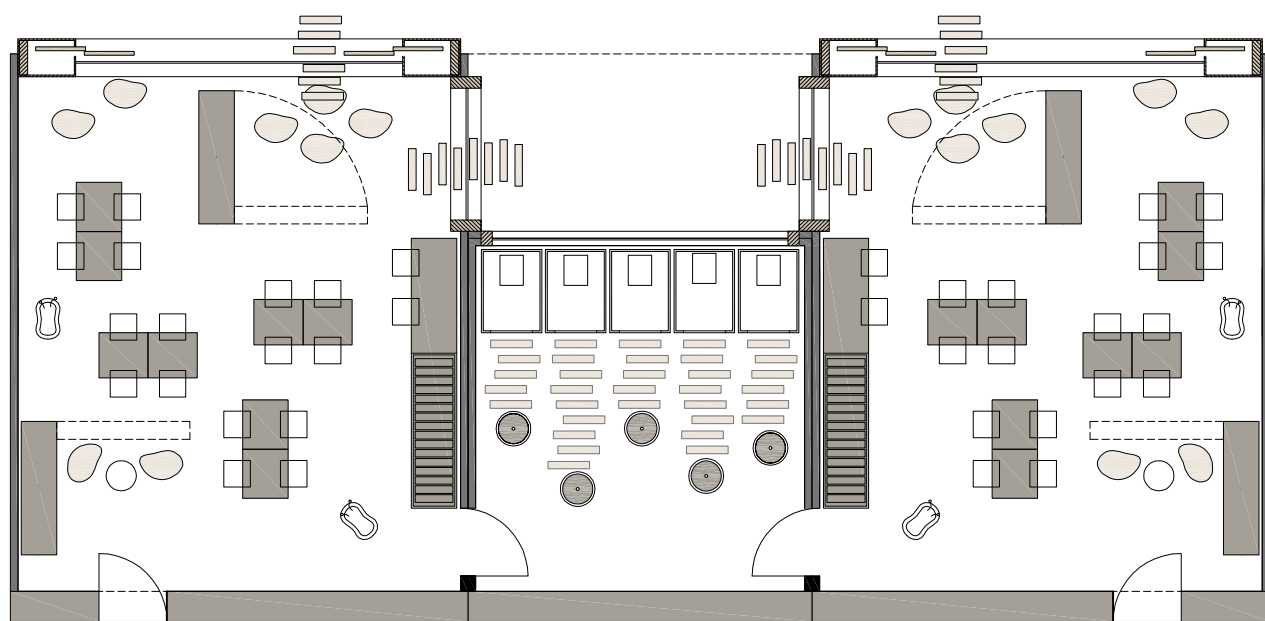

vsak od razvitih tlorisev predstavlja drugačno tlorisno organizacijo, ki tudi ponujaja možnost igre različnim starostnim skupinam

# tipi tlorisev igralnice

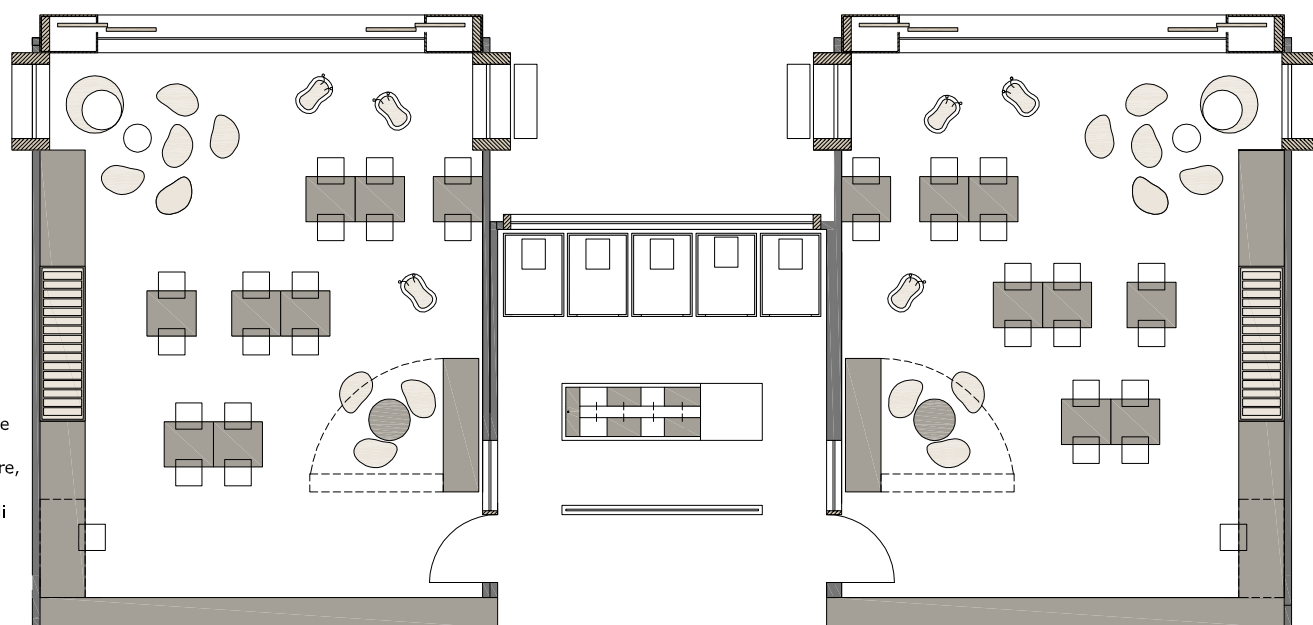

igralnica 1  
različni potiski tal omogočajo raznoliko oblikovanje ambientov  
oznaka: T11

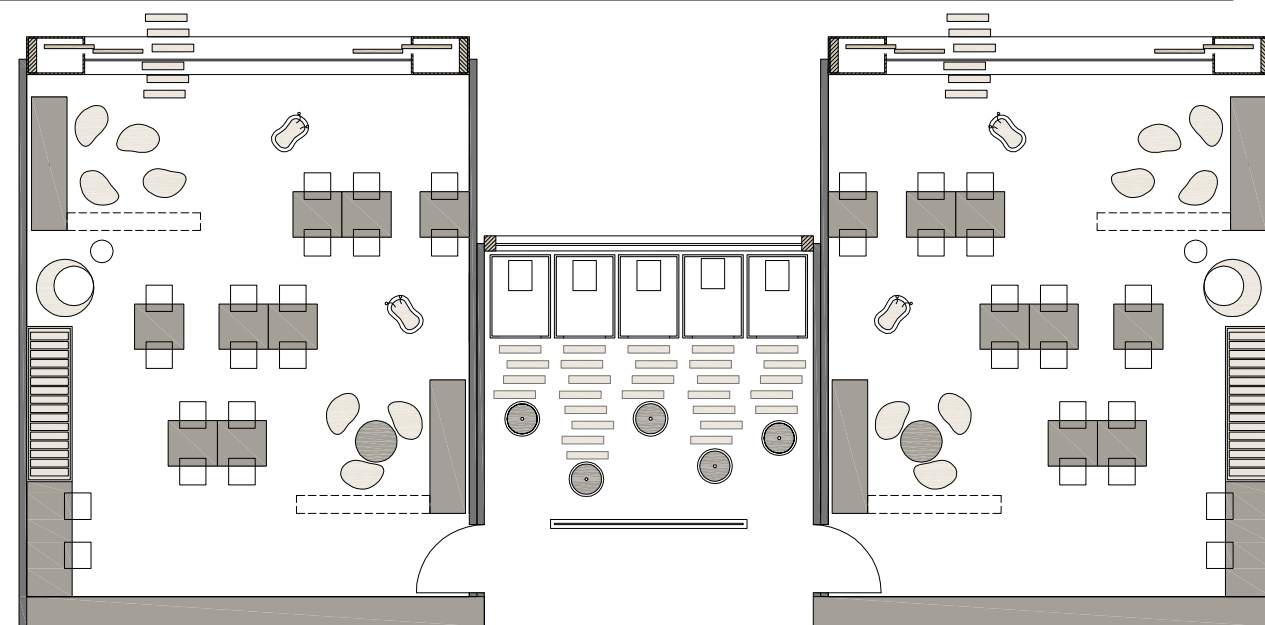

igralnica 3  
igralnici sta povezani s krožno potjo, ki vodi pod nadkritim delom terase ter skozi razširjen igralni prostor v sanitarijah  
oznaka: T13

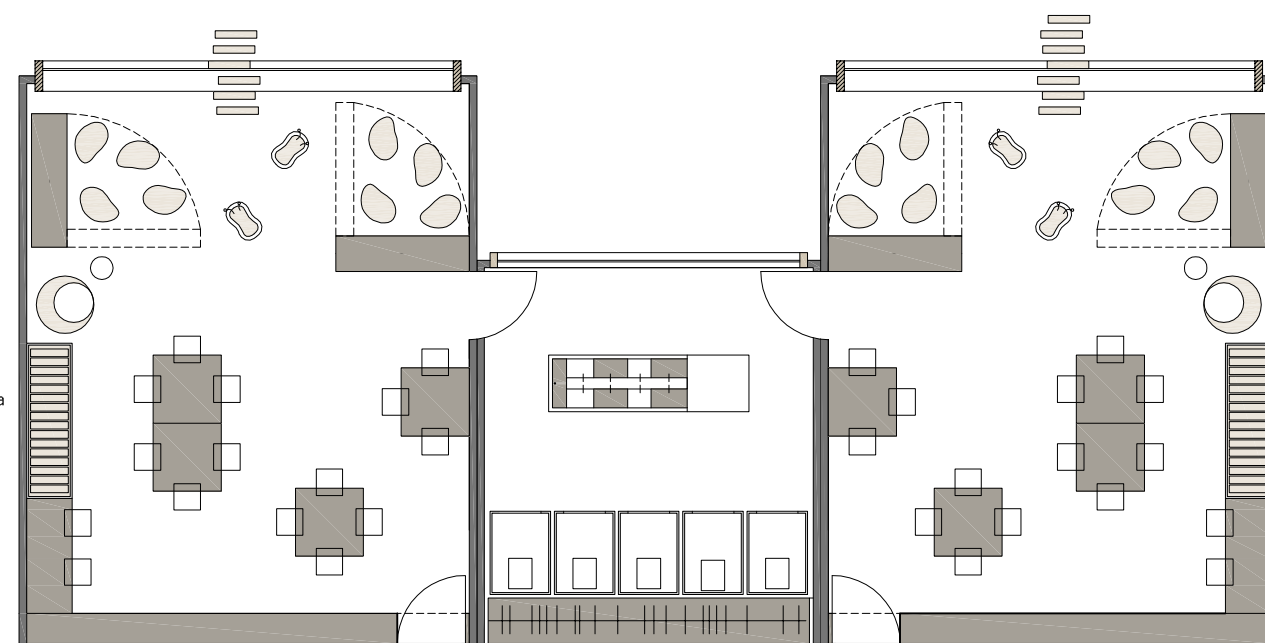

igralnica 5  
steno igralnice nadomesti element omare, v katerem je vključena tudi shramba za ležalnike  
oznaka: T15

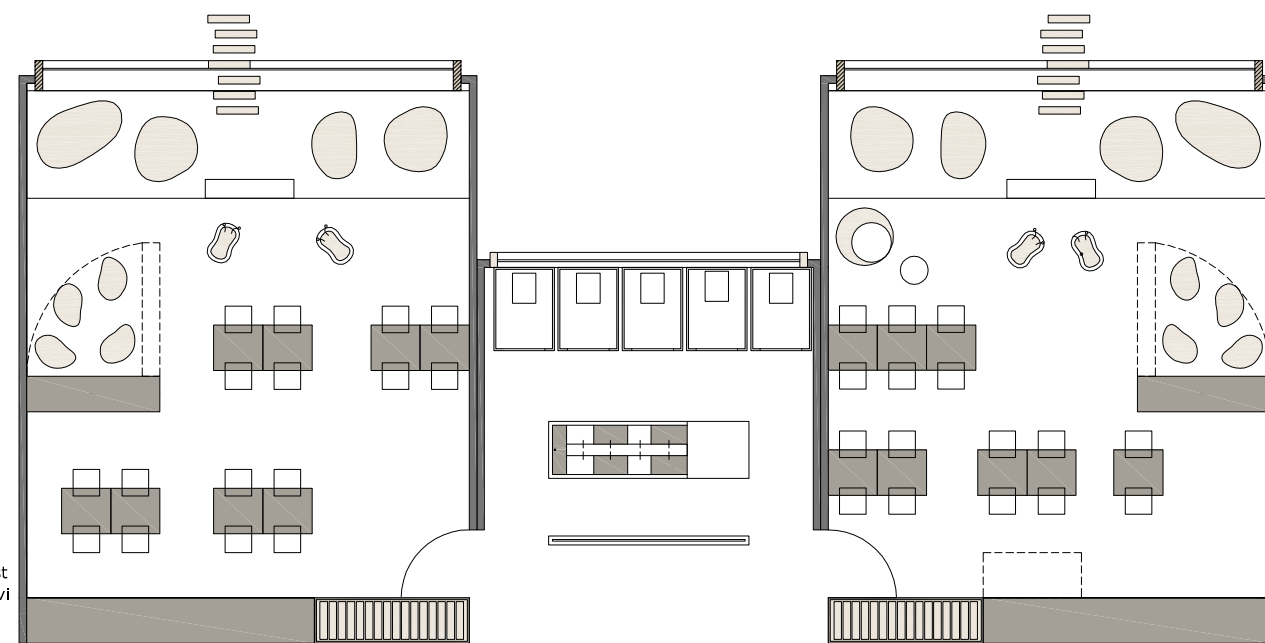

igralnica 2  
z zamikom stene sanitarij se razširi hodnik, s tem se ustvari večji zaliv, ki služi kot manjša skupna igralna površina  
oznaka: T12

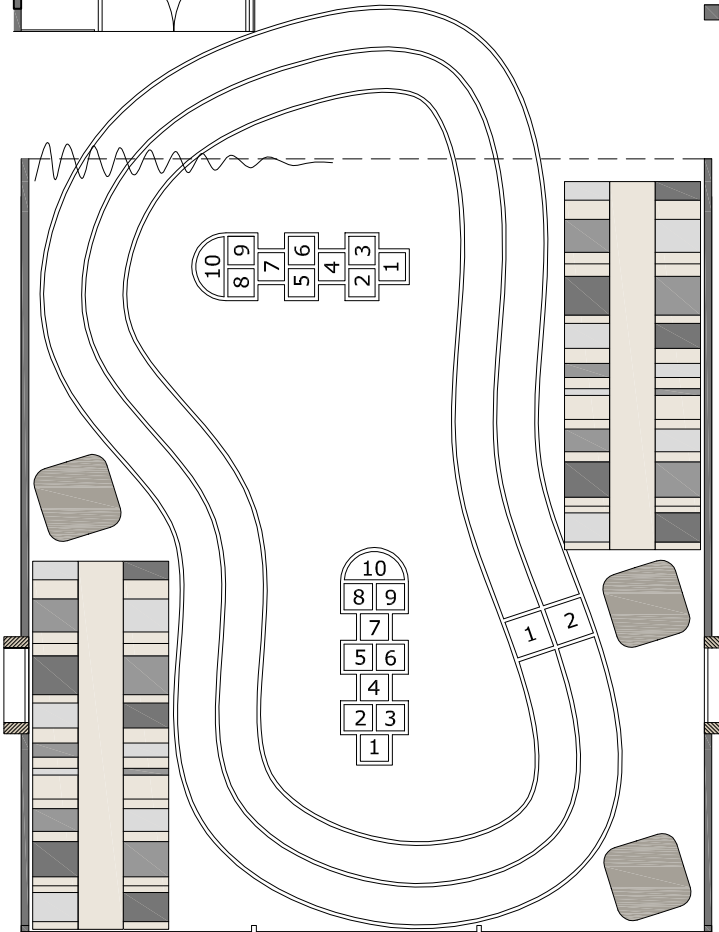

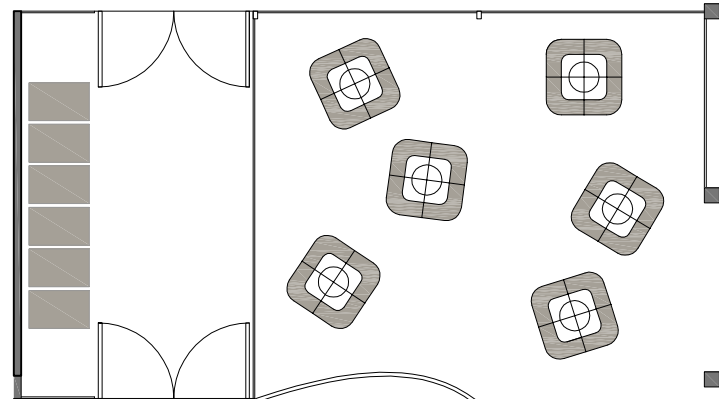

igralnica 4  
sanitarna enota povezuje dve igralnici z svojevrstnim igralnim elementom (lijak v obliki fontane) pred panoramskim oknom  
oznaka: T14

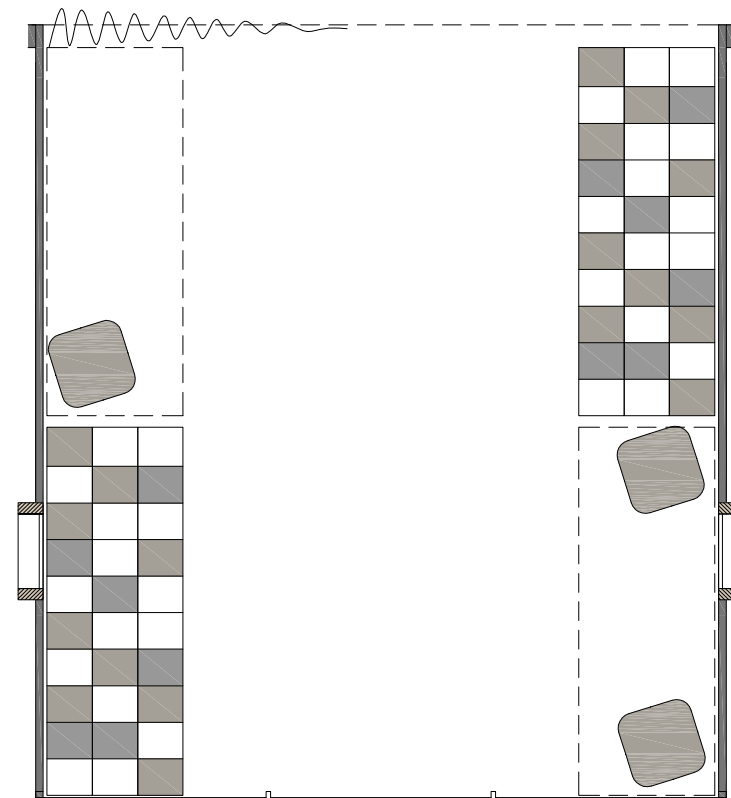

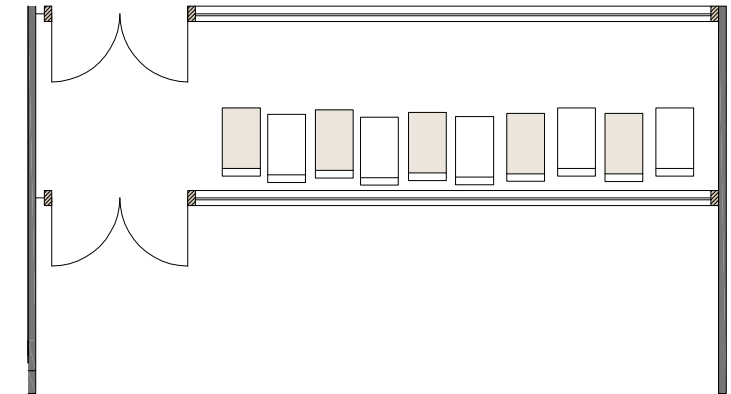

igralnica 6  
ob celotni dolžini okna je dvignjen podest z igralnimi zalivi  
oznaka: T16

# tipa tlorisov večnamenske avle

večnamenska avla 1  
z različnimi potiski na tleh ustvarja ambiente za različne dejavnosti, s preničnimi garderobnimi elementi pa je omogočena maksimalna izraba prostora  
oznaka: TA1

večnamenska avla 2  
oznaka: TA2

# NOTRANJA OPREMA

---

pregradne omare nadomeščajo stene v notranjosti in s tem omogočajo vgradnjo že v proizvodnji

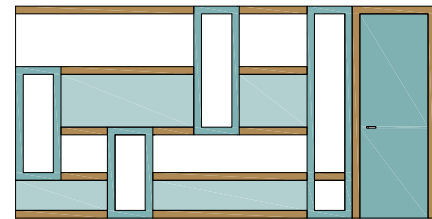

mobilnost garderobnih elementov povečuje fleksibilnost večnamenske avle, saj jih lahko po želji premikamo po prostoru in s tem pregrajujemo oziroma odpiramo prostor

igralna omara omogoča nadaljno delitev igralnice za zagotovitev intimnejšega ambienta

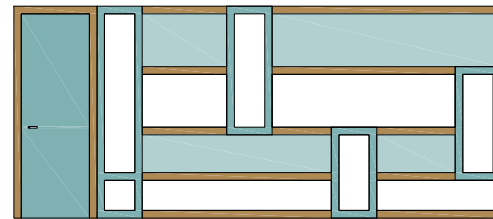

# notranja oprema

omara z razstavnimi vitrinami med igralnico in hodnikom

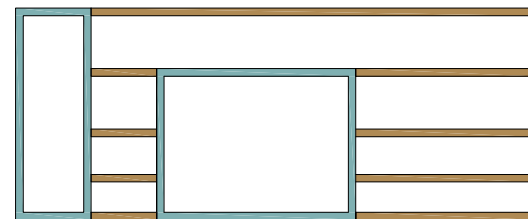

pogled iz hodnika

pogled iz igralnice

omara med igralnico in zunanostjo s prostorom za shranjevanje ležalnikov

tloris

gardorebna omara pri igralnicah

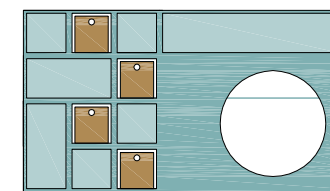

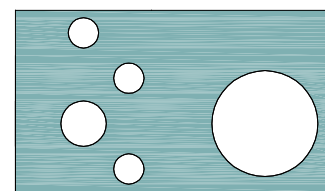

pogled

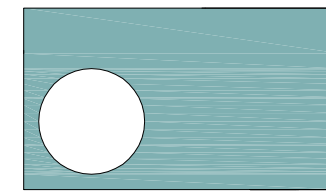

igralna omara z možnostjo odpiranja ene stranice

zunANJI pogled

notranji pogled

## OKNA LOPUTE

---

razvili smo več tipov oken, ki omogočajo različno členjenost in odpiranja fasade, ter s tem otrokom ponujajo raznovrstne interakcije z zunanjo

# okna

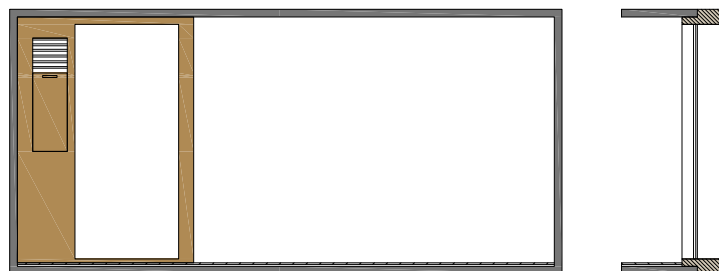

tri modularne enote zložene skupaj

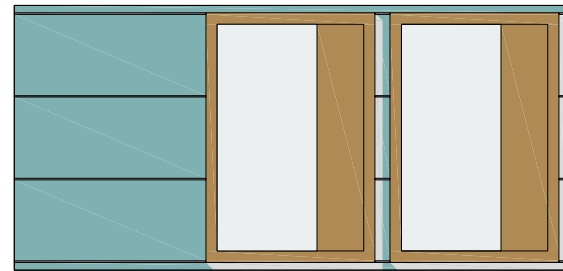

vertikalni način odpiranja lopute iz notranje strani

horizontalni način odpiranja lopute iz notranje strani

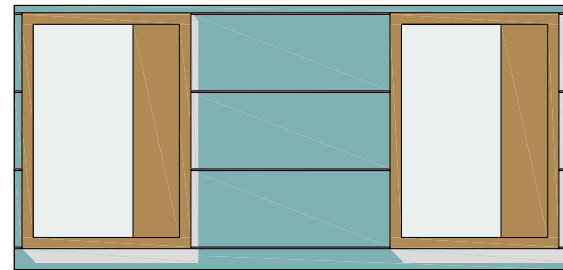

vertikalni način odpiranja lopute iz notranje strani

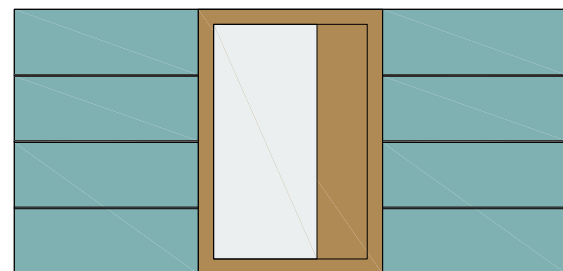

okno, ki v notranjem prostoru poteka od tal do stropa

oznaka: OK1

okno z notranjo polico za sedenje

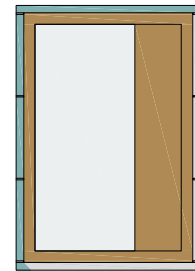

oznaka: OK2

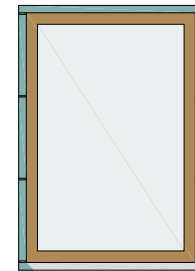

okno, ki nadomesti celotno krajšo stranico modularne enote

oznaka: OK3

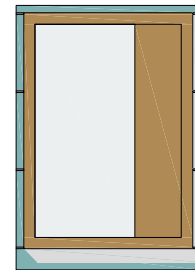

krajša stranica modularne enote

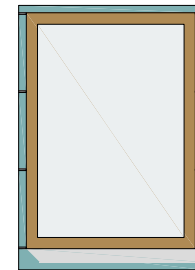

oznaka: OK1B

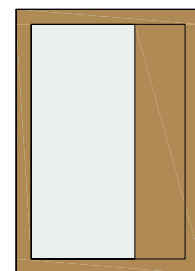

oznaka: OK1B

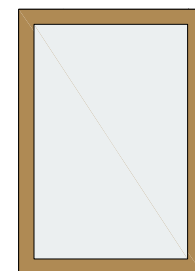

oznaka: OK2A

oznaka: OK2B

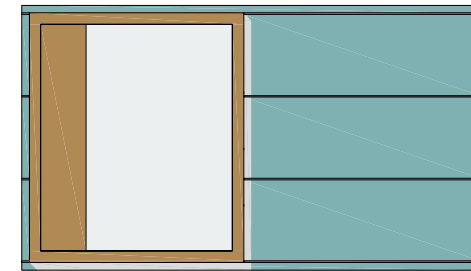

oznaka: OK3A

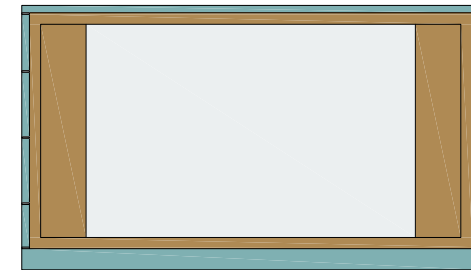

oznaka: OK3B

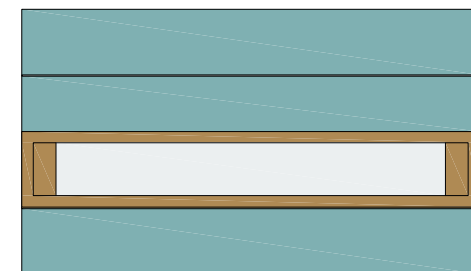

daljša stranica modularne enote

oznaka: OK1C

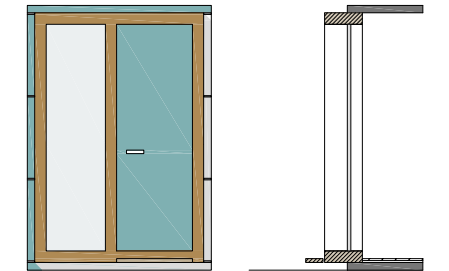

oznaka: OK1C

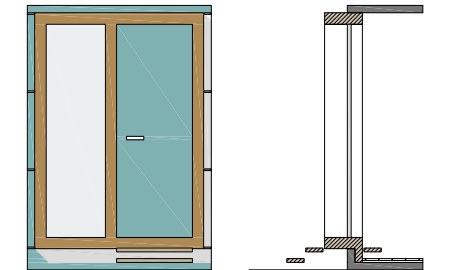

oznaka: OK4

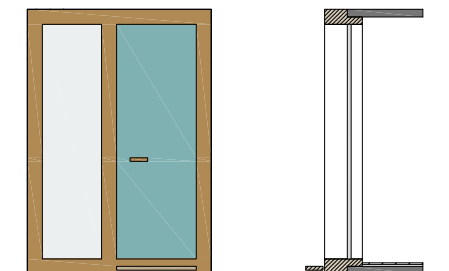

vrata na krajši stranica modularne enote

oznaka: VR1

oznaka: VR2

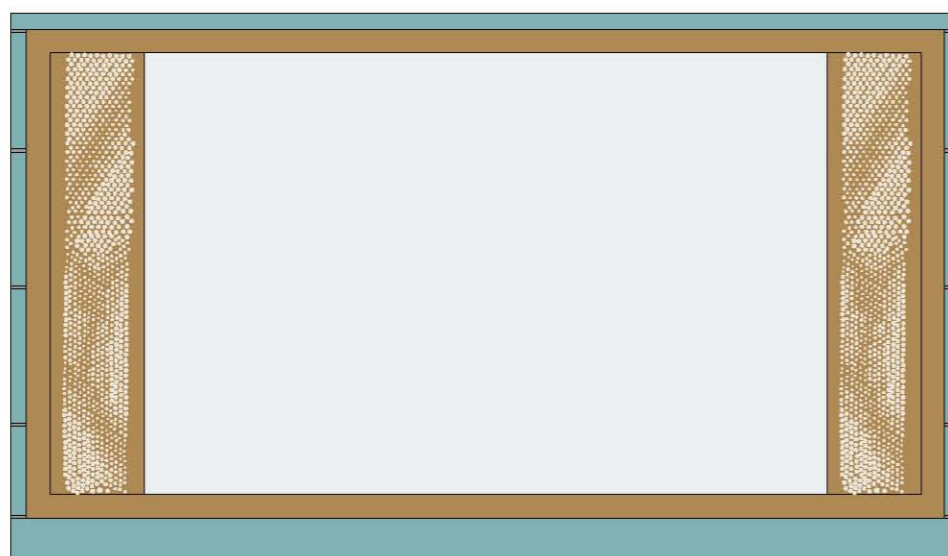

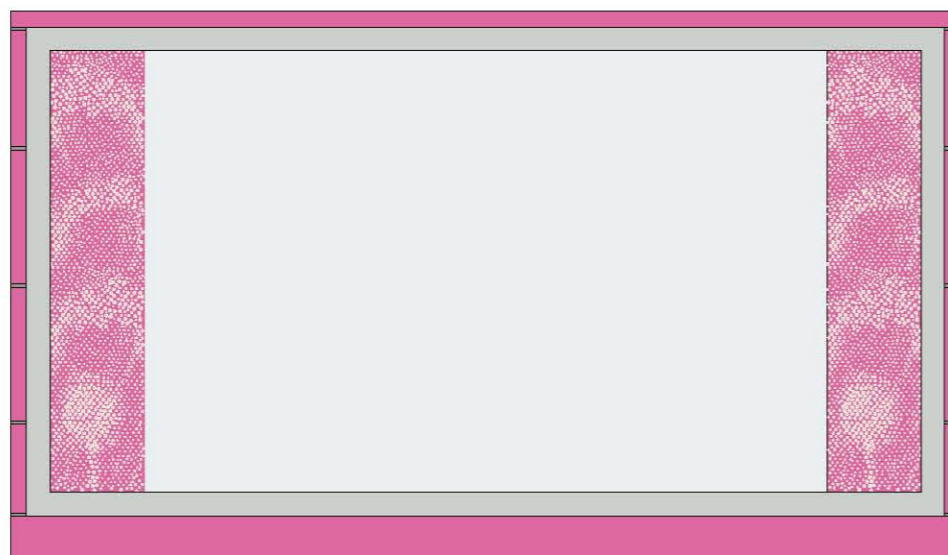

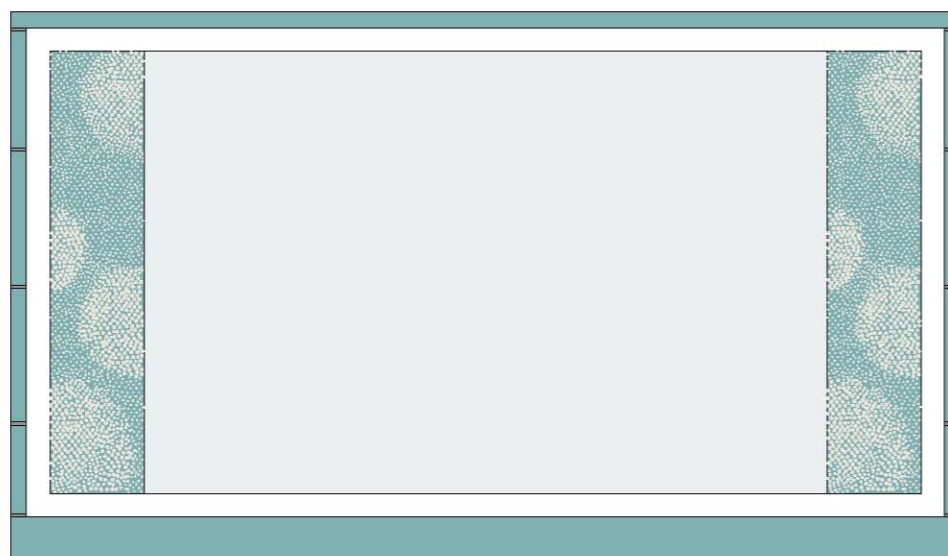

oznaka: VR3

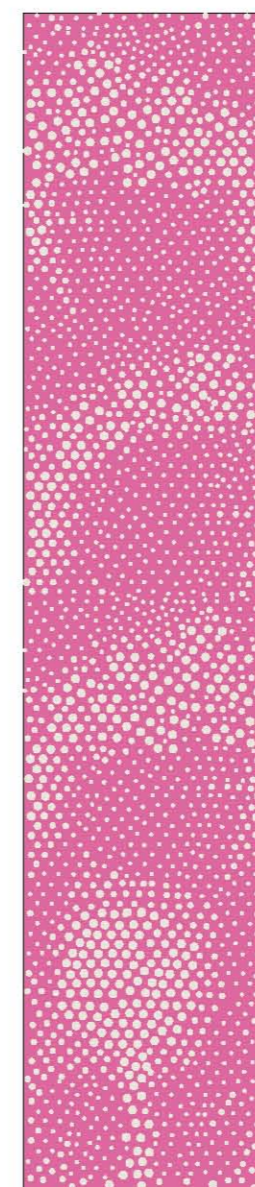

# zračne lopute

različne možnosti perforacije zunanje fiksne strani zračne lopute

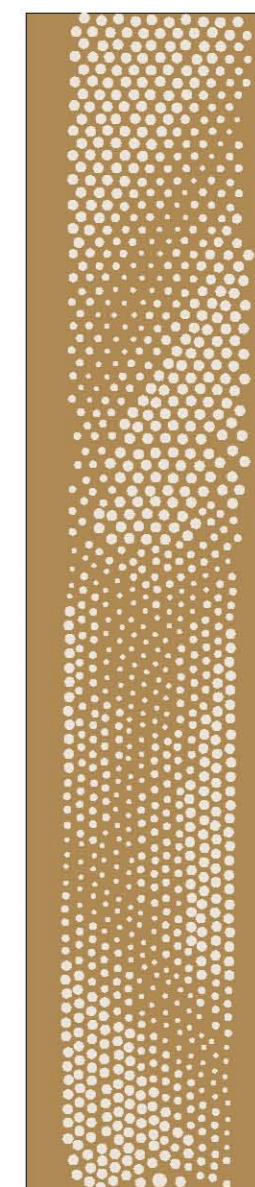

možnost uporabe različnih materialov za izdelavo loput in okenskih okvirjev (les, Trimo paneli)

oznaka: LO1

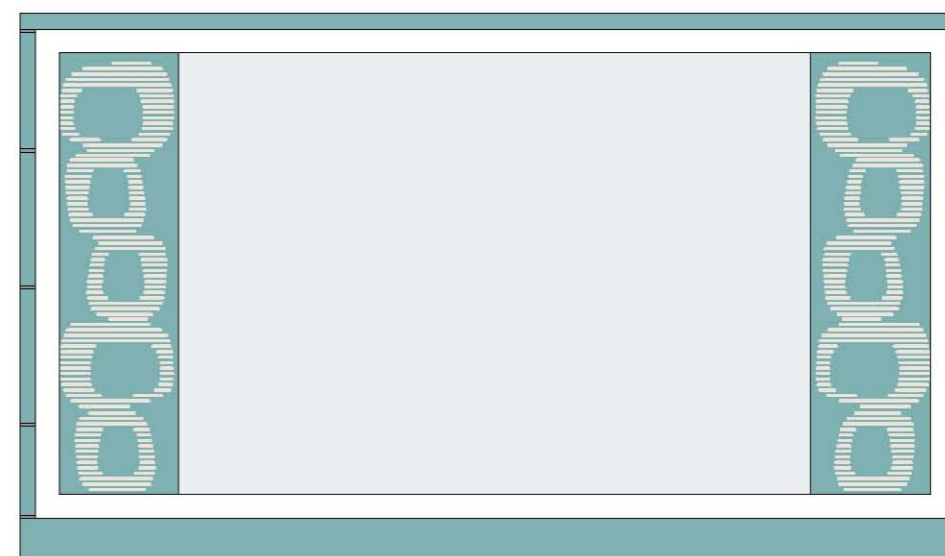

oznaka: LO2

oznaka: LO3

oznaka: LO4

# ZUNANJE TERASE

---

predlagana sistema predstavljata razširitev igralnice  
na zunanji nadkrit prostor, ter hkrati omogočata  
neposredno senčenje

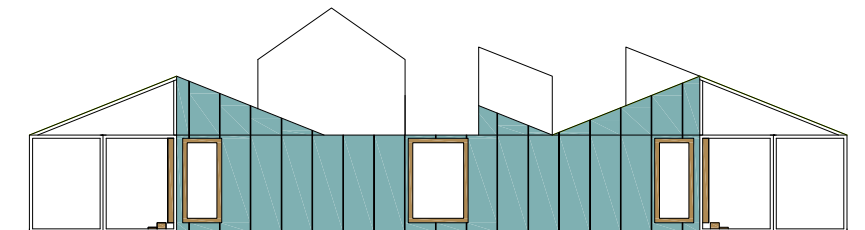

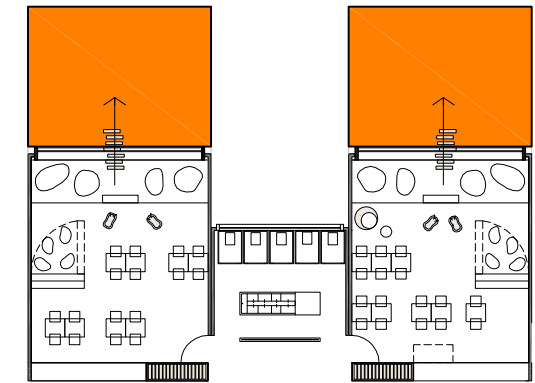

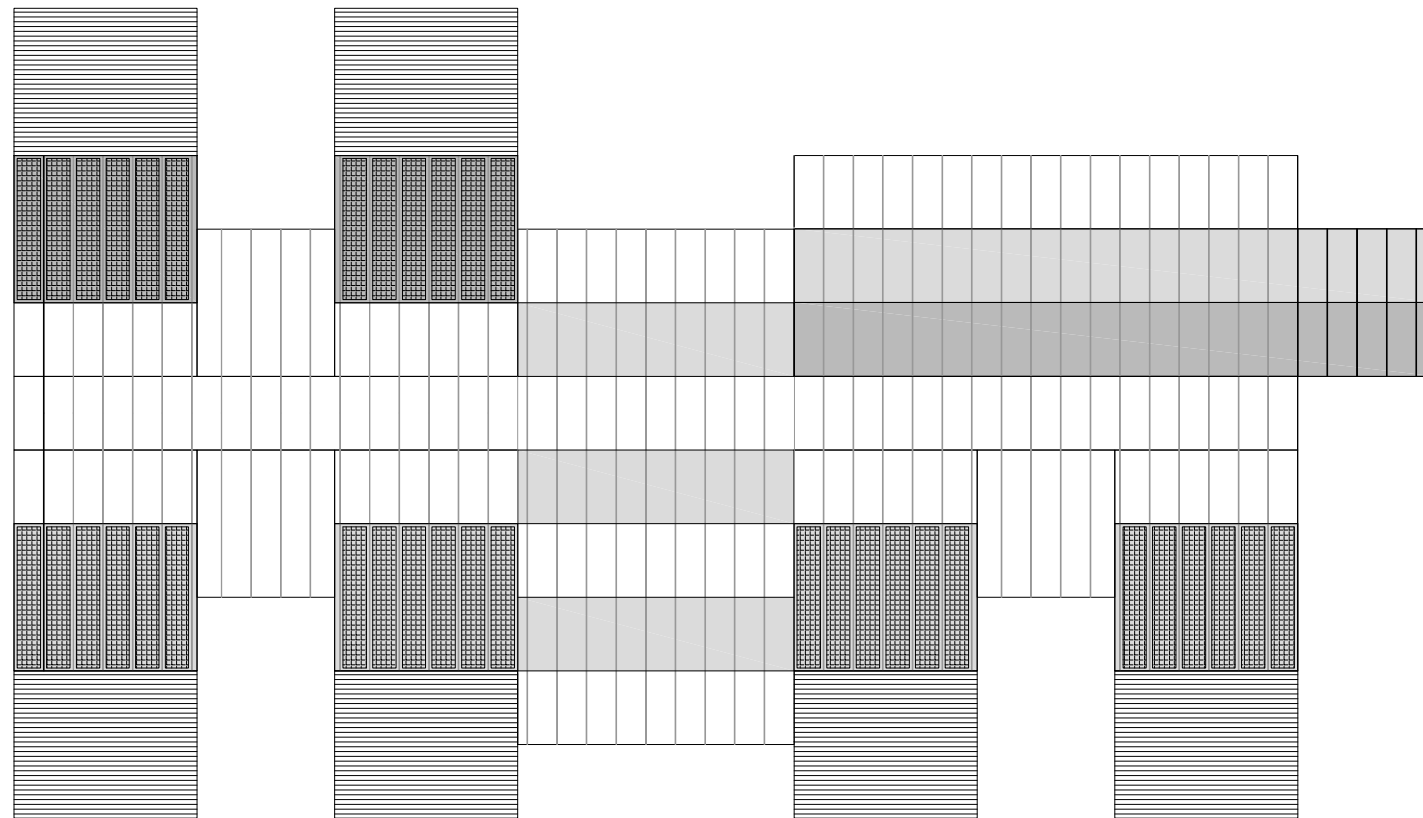

senčenje z  
dodajanjem  
novega prostora, ki  
nudi možnost  
odpiraja

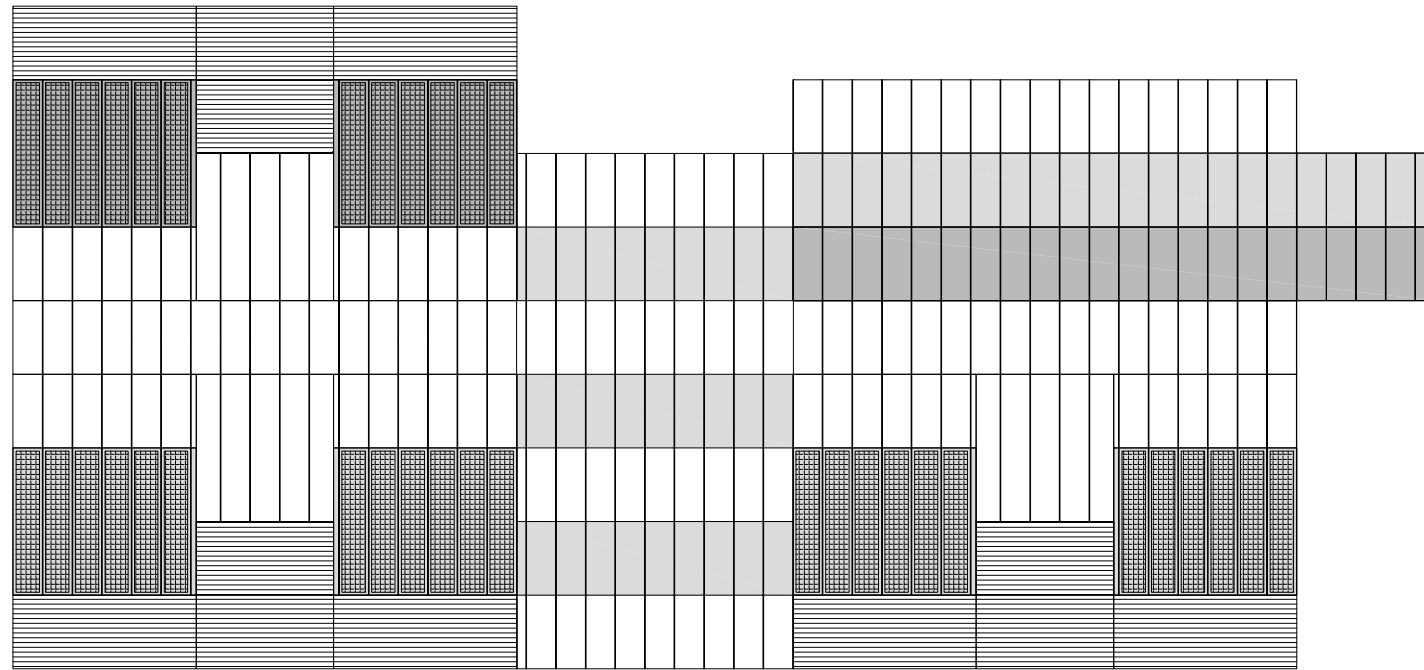

tlorisna postavitev  
senčil

pogled

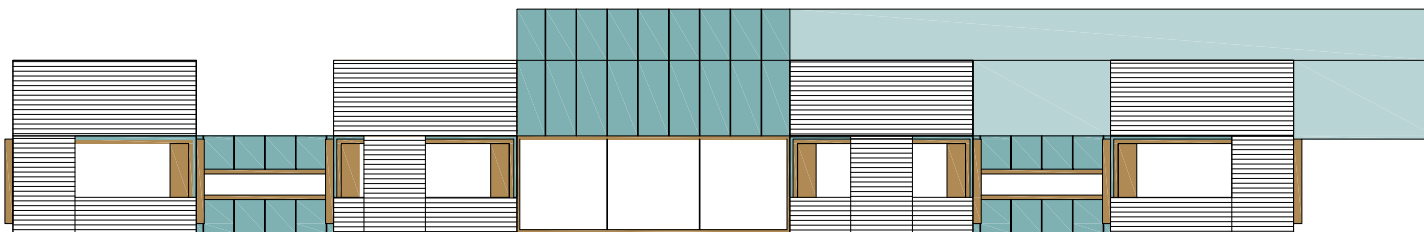

referenčni primer  
Lacaton Vassal

senčenje prostorov  
z lesenimi, fiksnimi  
senčili

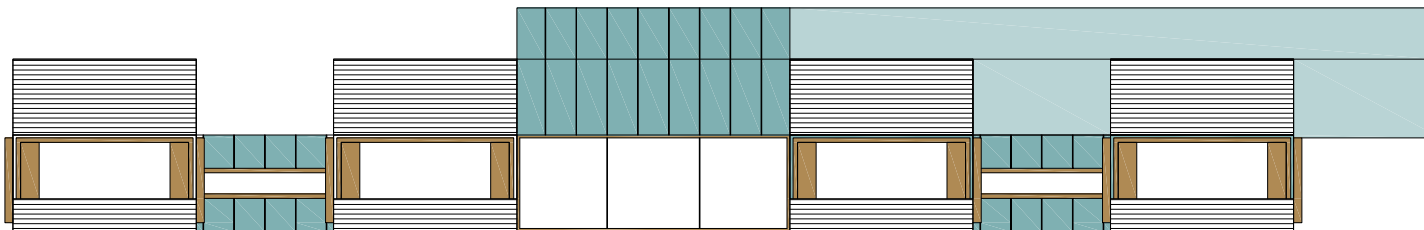

tlorisna postavitev  
senčil

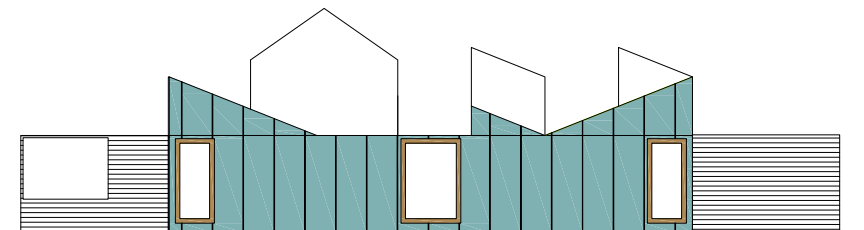

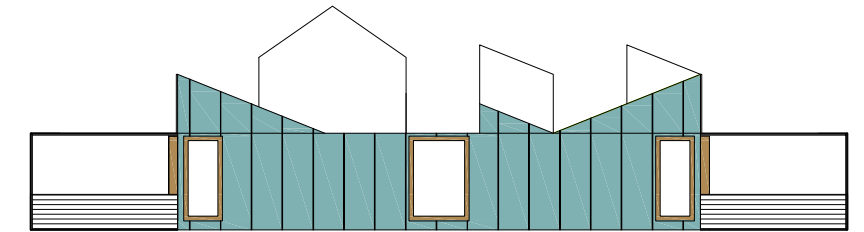

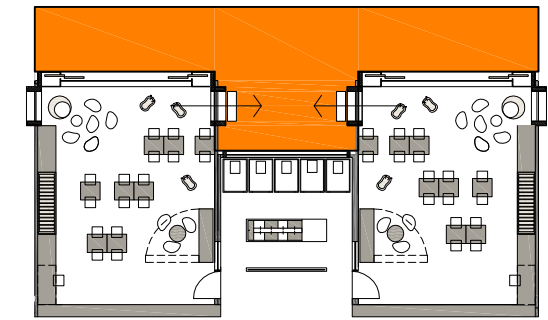

različne možnosti  
postavitve senčil

pogled

referenčni primer

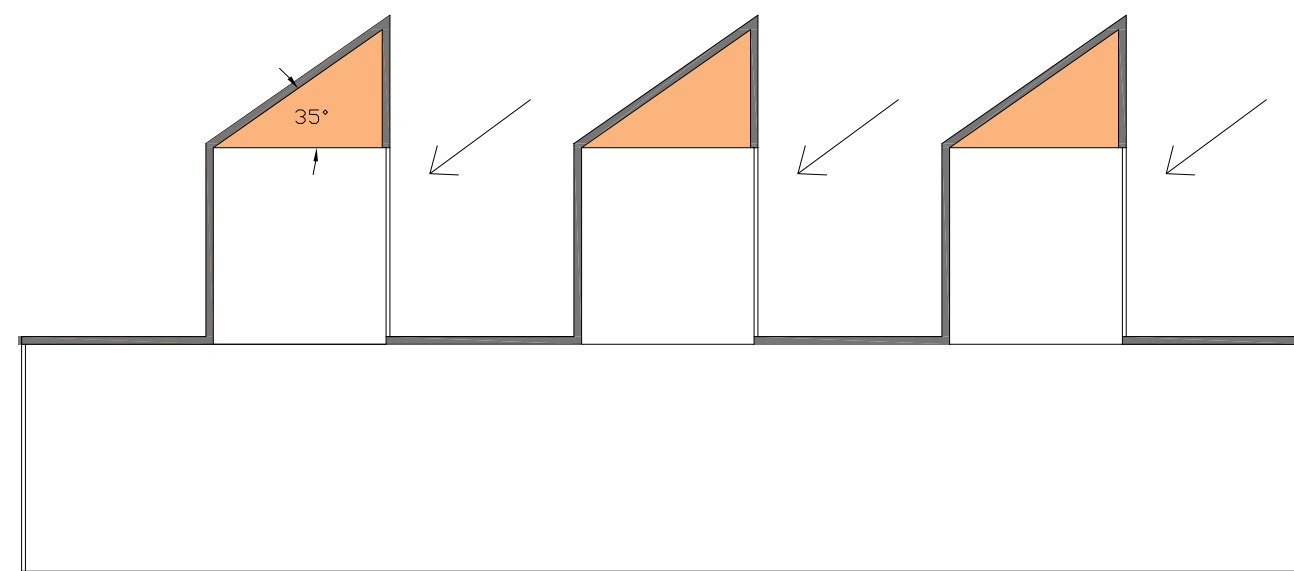

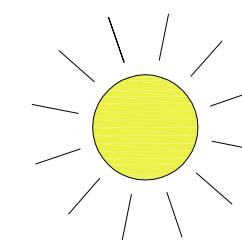

# STREHE

---

razvili smo več sistemov prehoda svetlobe v prostore  
(svetlobniki) z možnostjo uporabe tudi kot fasadni  
element (okna, vrata)

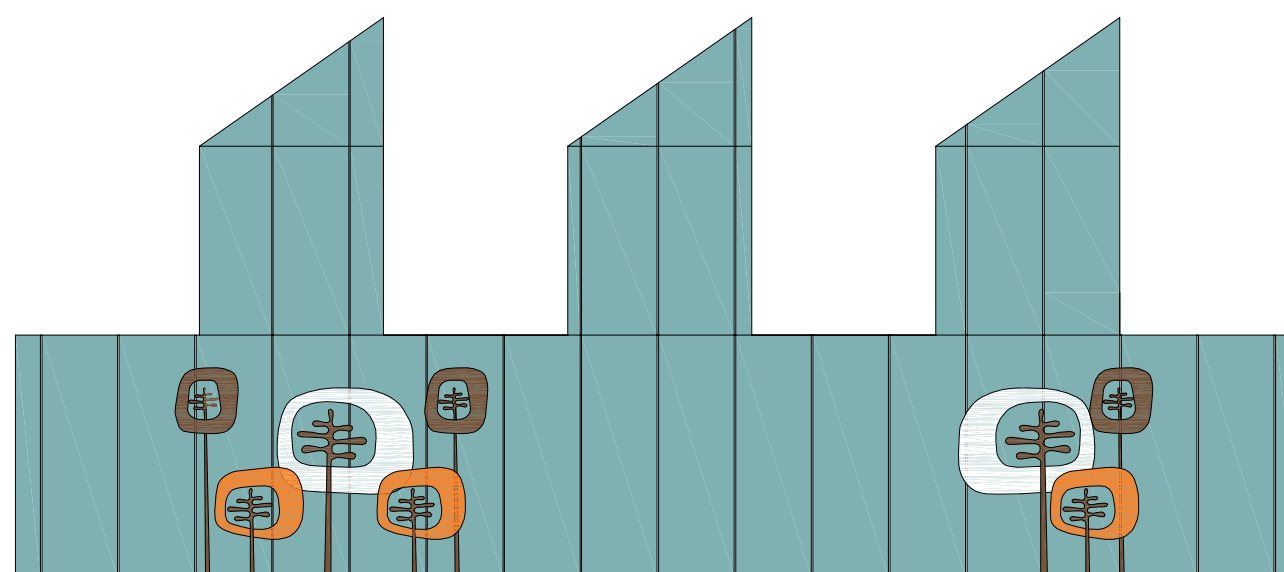

globok prostor  
avle osvetljujemo  
preko  
svetlobnikov, ki  
povečajo  
volumen avle

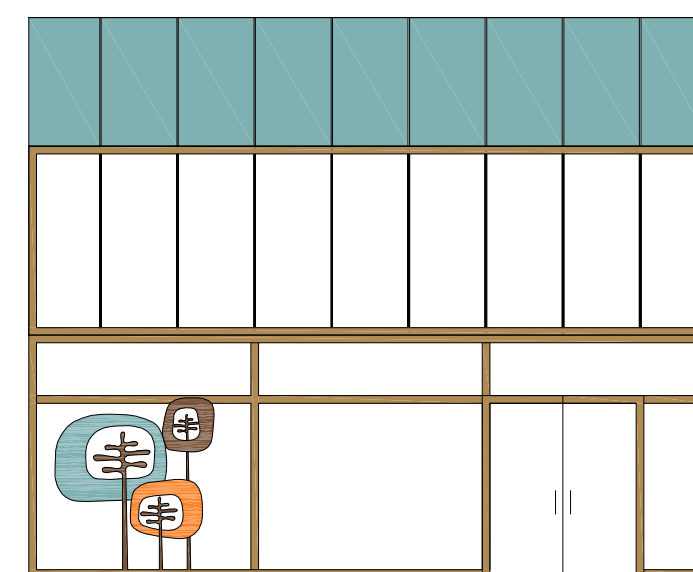

prerez strehe

pogledi

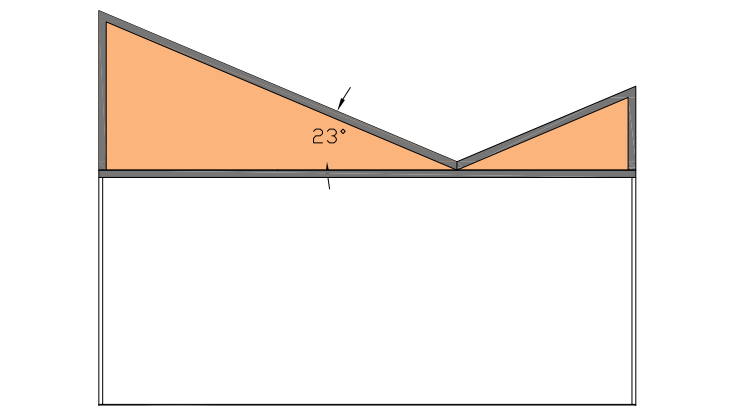

fasada zloženih krajših stanic modularnih enot

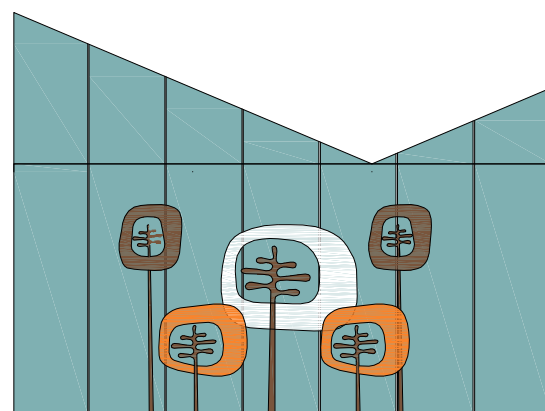

fasada daljše stranice modularnih enot

naklon strehe  
omogoča zajem  
severne in južne  
svetlobe v  
igralnice, ter je  
primernejši za  
namestitvev  
sončnih celic

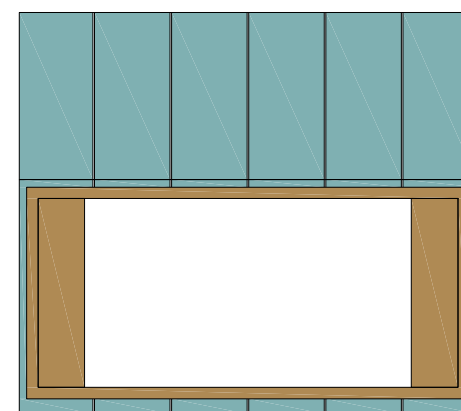

prerez strehe

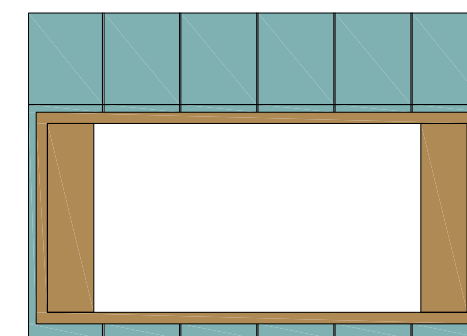

pogledi

fasada zloženih krajših stanic modularnih enot

# PRIMER

---

tloris je zasnovan okoli centralne avle, ki se s svojo transparentnostjo povezuje z okoljem. nanjo je pravokotno pripet pas učilnic(zasnova križ).

po dve učilnici si delita eno sanitarno enoto, ki je zamaknjena od hodnika in s tem ustvarja manjši igralni prostor na hodniku

servisni del je organiziran v pritličju, nad njim je postavljena lamela z zbornico in kabineti za vzgojitelje.

v primeru smo uporabili

tloris: križ 6 enot

avla: VA1

igralnica: TI5

okna: OK2B, OK1C, VR2

streha: ST1, ST2

fasada: FDR1

tloris vrtca z igralnico TI5 ter večnamensko avlo VA1
